---

Summary

Junior full stack developer with 2 years of experience building and maintaining web applications.

Education

Coding Traineeship
IT Careers Switch   September 2023 - March 2026

• Completed full-stack training with Codecademy, then built two production-style projects with mentorship and code reviews from a senior developer.

Bachelor of Mathematics
Open University   September 2021 - June 2023

• Undergraduate study towards a Bachelor of Mathematics.

Projects

Gazetteer
• Built a full-stack geolocation web application with a PHP backend and Bootstrap frontend.
• Developed PHP endpoints to organise and combine data from multiple public APIs.
• Implemented error handling and validation across all external API requests.
• Processed backend data and delivered it to an interactive world map interface based on user geolocation.
